Cynnwys

Mae bwriadau strategol y Coleg wedi eu gosod ymysg tirlun addysgiadol sy'n cael trawsffurfiad mawr. Mae cyhoeddiad 'Trawsffurfio Addysg a Hyfforddiant yng Nghymru – Cyflwyno Sgiliau sy'n Gweithio i Gymru' wedi dechrau cyfnod o newid dramatig ar gyfrer rhwydwaith dysgu yng Nghymru. Yr effaith uniongyrchol a syth ar y Coleg yw datblygiad Chweched y Rhyl ac uniad bwriedig gyda Choleg Meirion-Dwyfor. Er hynny, dim ond y dechrau yw hyn, ac mae'r Coleg angen lleoli ei hun yn strategol er mwyn ymateb i sialensiau trawsffurfiad dros y blynyddoedd nesaf.

Mae'r Coleg wedi gwasanaethu anghenion Conwy a Sir Ddinbych ers dros 20 mlynedd, ond mae trawsffurfio yn amlygu'r angen i'r cynllun yma i leoli'r Coleg er mwyn ymateb i anghenion Gwynedd, gan weithio gyda phartneriaid Addysg Bellach yn yr ardal. Felly mae Strategaethau Cymunedol y tair sir wedi cael eu hystyried tra'n gosod y bwriadau strategol.

Mae 'Y Wlad sy'n Dysgu: Gweledigaeth ar Waith', 'Sgiliau sy'n Gweithio i Gymru' a 'Cymru: Gwlad sy'n Gweithio', yr adroddiad blynyddol cyntaf gan Bwrdd Cyflogaeth a Sgiliau Cymru (BCSC), yn egluro rôl hanfodol Addysg Bellach yn natblygiad sgiliau i adeiladu cymunedau a datblygu economi Cymru. Mae cynlluniau'r Coleg wedi ystyried nifer o flaenoriaethau LlCC, gan gynnwys 'Cynllun Gweithredu Llwybrau Dysgu 14-19' a 'Mesurau 14-19'. Bydd rhain yn parhau i ddylanwadu ar gynlluniau'r Coleg ar gyfer fframwaith gydlynol ar gyfer llwybrau 14-19 yng Nghonwy, Sir Ddinbych a Gwynedd.

Roedd y cyhoeddiad yn ystod 2008-09 y byddai Colegau AU yng Nghymru yn gallu ymgeisio am bwerau dyfarnu Gradd Sylfaen yn newyddion i'w groesawu. Bydd hyn yn galluogi Coleg Llandrillo Cymru i ymateb yn gyflym i anghenion cyflogwyr a dysgwyr rhanbarthol ar gyfer lefel uchel o sgiliau galwedigaethol. Mae bwriadau strategol y Coleg, a adeiladwyd ar blatfform o lwyddiant hyd heddiw, yn ei osod mewn safle wych i ymateb gyda grym i'r sialensiau yma.

Context

The strategic intentions of the College are set amidst an educational landscape that is undergoing a major transformation. The publication of 'Transforming Education and Training in Wales – Delivering Skills that Work for Wales' has set in motion a period of dramatic change for the learning infrastructure of Wales. The direct and immediate impact on the College has been the development of the Rhyl Sixth and the intended merger with Coleg Meirion-Dwyfor. However this is only the beginning and the College needs to position itself strategically to respond to the challenges of transformation over the next few years.

The College has served the needs of Conwy and Denbighshire for over 20 years, but transformation highlights the need for this plan to position the College to respond to the needs of Gwynedd, working with its Further Education partners in that area. The Community Strategies of all three counties have therefore been taken into account when setting the strategic intentions.

'Learning Country: Vision into Action', 'Skills that Work for Wales' and 'A Wales that Works', the first annual report from the Wales Employment and Skills Board (WESB), all make clear the critical role of Further Education in the development of skills for building communities and developing the economy of Wales. In line with the recommendations of WESB, the College's strategic intentions take account of the needs of learners in the recession whilst building skills for the future, enabling communities to emerge from the economic downturn in a stronger position. The College will continue to engage robustly with employers and its communities to ensure that its education and training delivers what the region's employers need now, as well as in the future.

The College's plans have taken account of a number of other WAG priorities, including '14-19 Learning Pathways Action Plan' and the '14-19 Measures'. These will continue to influence the College's plans for a cohesive framework for 14-19 pathways in Conwy, Denbighshire and Gwynedd.

The announcement during 2008-09 that FE Colleges in Wales would be able to apply for Foundation Degree awarding powers was welcome news. This will enable Coleg Llandrillo Cymru to respond more rapidly to employers' and regional learners' needs for high level vocational skills. The College will pursue the development of new vocational Higher Education in partnership with Higher Education institutions and employers.

The College's future plans take account of 'People, Places, Futures – the Wales Spatial Plan Update' to ensure that, where appropriate, new developments are set within the context of the spatial area of North West Wales plus Denbighshire. The inclusion of Denbighshire allows for the fact that Coleg Llandrillo Cymru serves that county and takes into account the concept of 'fuzzy boundaries', allowing for spatial patterns of influence rather than rigid geographical boundaries.

The consultation document 'Welsh-Medium Education Strategy' sets out how education can play its part in achieving the aims in 'Iaith Pawb' for a bilingual Wales. Coleg Llandrillo Cymru has worked steadfastly in this area to ensure learners are able to access education through the language of their choice and, whilst it has moved this agenda significantly, it recognises that there is more to do in this important area of its work.

Finally, this next phase of the College's development falls within a period when there is likely to be a reduction in public funding, leading to a potential cut in funding for education. It is important therefore that the College seeks to increase its sources of non-government income if it is to continue to deliver its Mission.

The College's strategic intentions, built upon the platform of its success to date, place it in a prime position to respond with vigour to these challenges.

- Focussing staff development activities on pedagogy to share best practice in creative, modern teaching and learning methods
- Establishing a pedagogy group to support this work
- Striving for a streamlined, automated, customer-focussed service in all operations from enquiries through to exit
- Developing a first class Student Support Service through embedding new initiatives such as the online tutorial system and learner involvement activities whilst continuing to modernise services
- Continuing to modernise accommodation and facilities in a planned programme of renewal.

(6) A Sustainable College

The College will actively work towards improving sustainability on all dimensions. It will review the way it manages its own estate, the way it sustains its business operation and, crucially for the future of Wales, improve the way it educates its students in sustainability issues. It will do this by:

- Sustaining the business through optimization of other funding sources and mergers & acquisitions to develop critical mass
- Developing sustainable College operations through responsible resource use, sustainable new build, Low Carbon initiatives and maintenance of the Green Dragon level 5 standards
- Embedding the concepts of education for sustainable development and global citizenship into the curriculum for all learners.

(7) A Bilingual College

The College will continue to increase access to bilingual and Welsh medium educations for all learners who choose to study post-16 within the North West Wales area. Specifically, the College will:

- Harmonise the bilingual and Welsh medium education strategies of the two institutions as part of a framework approach to extend and improve the bilingual experience and Welsh medium learning
- Continue to implement strategies to:
  - develop staff in their bilingual capability
  - develop a national learning resource and bilingual teaching facility
  - support employers in developing a bilingual ethos
  - provide learners with outstanding Welsh medium and bilingual learning experiences
- Concentrate resources where they are most needed to serve the differing needs of the Welsh speaking population across the region.
